EDUCATION

	2013-2016	**Reykjavík University**
B.Sc. Computer Science		In my second and third year I was a teaching assistant in the courses *Programming T-111-PROG* and *Problem Solving T-114-VERK* both thought in C++
	2008-2012	**Commercial College of Iceland**
Marticulation Examination		Specialization in economics. Extra-curricular activities included: Chairman of the school radio station.

WORK EXPERIENCE

	2018-	Software Developer
QRTECH AB		Currently working at QRTECH AB in Gothenburg, Sweden as a developer. Here I have been working on an automotive research project. The research is about self driving cars trying to find out if there is a possibility using less expensive hardware components for self driving cars and more complex software. This project is written in C++ and uses OpenCV.
	2016-2018	Software Developer
LS Retail		At LS Retail I worked as a .NET developer. I worked on various projects there, the two that I put the most time on where developing a Web POS (*point of sale system*) and an external service for connecting hardware to a web applications. Both of these products where released for the first time while I was working there.
	2016	Programmer
Fraunhofer CESE		Worked as an intern programmer at Fraunhofer which is a software research company. This internship was a part of my final project for Reykjavík University. My biggest contribution while I was there was building an evaluation tool to calculate the precision of autonomous robots landings.

COMPUTER SKILLS

Languages	Python, C/C++, C#, Java, SQL, JavaScript, Bash
Others	LaTeX, Linux, HTML, CSS, OpenCV, SignalR, Dynamics NAV, Visual Studio

LANGUAGE

Icelandic	Native speaker
English	Fluent
Swedish	Good

OTHER INFORMATION

I was a member of the Icelandic national table tennis team for three years. The winter 2012-2013 I lived in Åsa, Sweden and played for Åsa IF table tennis club. I have also played for Horreds BTK in Sweden and Molde BTK in Norway.
